## Invitation

The International Conference on Operations Research: Theory, Applications and Emerging Technologies (ICORSI 2026) is a premier global forum where leading researchers, scholars, and industry innovators converge to advance the frontiers of Operations Research and Business Analytics.

Hosted by IIT Delhi in partnership with the Operational Research Society of India (ORSI), ICORSI 2026 bridges theory and practice across four thematic areas: Core Optimization and Decision Sciences; AI and Machine Learning; Business Analytics, operations and Operations, Management, and Sustainability and Social Impact. The conference convenes forward-thinking minds to explore transformative technologies, share groundbreaking research, and forge collaborative partnerships that drive meaningful impact across academia, industry, and society.

We invite you to contribute your insights and join us in defining the future of Operations Research.

### Conference Chair

**Prof. S. Dharmaraja**  
IIT Delhi, India

### Conference co-Chairs

**Prof. Abhijit Majumdar**  
IIT Delhi, India

**Prof. Nomesh Bolia**  
IIT Delhi, India

**Prof. Surya Prakash Singh**  
IIT Delhi, India

**Prof. Vikas Vikram Singh**  
IIT Delhi, India

## Important Dates

**1<sup>st</sup> Sep 2026**  
Submission of  
Abstract

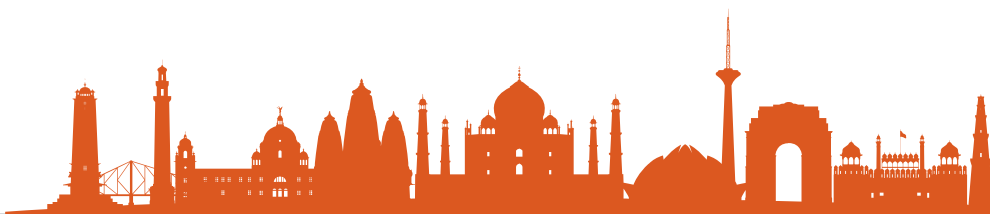

**15<sup>th</sup> Sep 2026**  
Acceptance  
Intimation

## Conference Tracks

ICORSI 2026 welcomes high-quality original submissions across the four curated tracks.

1

Track

### Core Optimization & Decision Sciences

- Operations Research and Combinatorial Optimization
- Scheduling and Timetabling
- Probability, Stochastic Processes and Queueing Theory
- Simulation, Modeling, and Statistical Analytics
- Robust and Stochastic Optimization
- Multi-Criteria Decision Making and Multi-Objective Optimization
- Game Theory and Mechanism Design
- Heuristics, Metaheuristics and Numerical Optimization

2

Track

### AI, Machine Learning & Modern Technologies

- Machine Learning and Data Science
- Reinforcement Learning and Sequential Decision Making
- Artificial Intelligence, Fuzzy Logic, and Soft Computing
- Generative AI and Foundation Models for Operations Research
- Graph Neural Networks and Network Optimization
- Edge Computing, IoT, and Distributed Intelligence
- Quantum Computing and Quantum Algorithms for Operations Research

3

Track

### Business Analytics, Operations & Supply Chain Management

- Enterprise Analytics and Decision Intelligence
- Supply Chain, Logistics, and Operations Management
- Revenue Management and Pricing Analytics
- Reliability, Quality, and Maintenance Engineering
- Financial Engineering, FinTech, and Risk Analytics
- Marketing Analytics and Consumer Intelligence
- Platform Economics and Digital Markets
- Behavioral Analytics and Decision Science
- Cybersecurity Analytics and Digital Resilience

4

Track

### Sustainability, Public Systems & Social Impact

- Sustainability, ESG, and Climate Analytics
- Energy Systems, Smart Grids and Renewable Energy
- Healthcare and Public Health Systems
- Smart Cities, Urban Mobility and Transportation Systems
- AI Ethics and Responsible Innovation
- Industry 5.0 and Human-AI Collaboration

### Call for Abstract

Abstracts from students and researchers are invited in the form of oral and poster presentations. All those desirous of participating and/or presenting in the conference are requested to complete the online abstract submission. Authors are requested to send one-page abstract in the prescribed format as given.

### Conference Proceedings and Special Journal Issues

- Accepted abstracts will be provided during the conference.
- Selected full papers will be considered for conference proceedings.
